

Kansas National Guard Economic Impact

Protecting communities, adding value to the state

The Kansas National Guard is a military organization of more than 5,300 Soldiers and more than 2,200 Airmen within Kansas. It has 38 community-based armories and two air wings, plus field maintenance shops, training sites and logistical support facilities throughout the state.

The **Kansas National Guard's mission** is to be the "9-1-1" for our state and nation's emergency responders, protect life and property in the state, provide military capability for a nation and be a valued part of our communities.

The Kansas Army National Guard indirectly creates approximately 1,224 jobs with an estimated annual dollar value of more than \$37.7 million. The estimated economic impact on Kansas communities is in excess of \$286 million.

The Kansas Air National Guard indirectly creates approximately 766 jobs with an estimated annual dollar value of more than \$29.9 million. The estimated economic impact on Kansas communities is in excess of \$260 million.
